Education

Cruzeiro do Sul, Bachelor's Degree in Electrical engineering, Mar 2026 – Mar 2031

XP Educação (XPE), *Specialization (Lato Sensu) in Software Architecture and Solutions*, Feb 2025 – Feb 2026

Unicesumar, *Technology Degree in Systems Analysis and Development,* May 2022 – Sep 2024

Experience

Veronese Maquetes – Freelance Full Stack Developer - **Deploy:** Veronese Maquetes
Curitiba, PR – Started in April *2025*

Key Responsibilities & Achievements:

- **Full-Stack Development:** I led the development of the entire website using **Scrum methodology** (with organization via **Trello**), designing and implementing both the front-end (**Angular**) and the back-end (**Go/Golang**) to deliver a modern, responsive and high-performance web application.
- **Cloud Deployment & Scalability**: Managed deployment on **AWS Lambda** for back-end scalability and cost efficiency, while utilizing **Vercel** for front-end hosting, ensuring optimal performance and reliability.
- **UI/UX Design & Branding**: Redesigned the company's **visual identity**, created intuitive user interfaces in **Figma**, and ensured a cohesive brand experience aligned with business goals.
- **Cross-functional Collaboration**: Worked closely with stakeholders and team members to translate requirements into functional and visually appealing solutions.
- **End-to-End Project Delivery**: Successfully delivered the project from **concept to deployment**, combining technical excellence with high-quality design for a seamless user experience.

Skills

- **Languages:** Golang, C#, Java, Javascript
- **Frameworks:** Asp.net, SpringBoot, ExpressJS, Angular, React, SolidJS
- **Database:** PostgreSQL, MySQL/MariaDB, MongoDB
- **Version Control:** Git, GitHub, GitLab

Languages

- **Brazilian Portuguese** – Native
- **English** – C1 (Senac Advanced English Certificate – 46.202401088/15767)
